

DesignPoint is a professional engineering and surveying firm specializing in municipal/civil projects including infrastructure master planning, land development, municipal infrastructure, hydrologic and hydraulic modelling, flood studies, transportation design, legal and topographical surveys, as well as specialized surveying.

The founders and principals of the company have a combined 100+ years of experience in these types of projects. New employees will join our collaborative team and have access to, and the support of, senior staff throughout each project.

DesignPoint is looking for a **Survey Technician** to work in the Bedford office. The successful candidate will have the opportunity to work on a wide variety of different projects, using state of the art equipment and software, and to work closely with the principals and senior staff at the firm.

Key responsibilities include:

- Field support for Surveyor;
- Regular communication with contractors;
- Preparation of legal survey plans;
- Attend safety meetings;
- Preparation of topographic plans;
- Participate in the development of project cost estimates;
- Research of plans and deeds; and
- Calculation of plans of surveys.

Key requirements include:

- Currently enrolled in or completed technician or technologist program;
- Ability to use survey equipment (total station, GPS);
- Ability to work outside in all weather conditions;
- Strong working knowledge of Civil 3D would be an asset;
- Ability to self-initiate and problem solve;
- Attention to detail;
- Strong written and oral communication (English) skills;
- Ability to work in a team environment; and
- Valid driver's license.

Key Benefits:

- Close working relationship with principals and senior staff at the firm;
- Respectful and collaborative work environment;
- Ability to grow and develop with a small local firm;
- Career and personal development opportunities; and
- Competitive remuneration packages.
